

## 2008 Health Care Plan Updates

As you know, the current copay for prescription drugs is 20% for formulary drugs with a maximum of \$32 for a one-month supply and \$80.00 for a three-month supply. Effective April 1, 2008, the drug copay maximum will be \$34 per prescription for a one-month supply and \$85 for a three-month supply. All other aspects of the pharmacy copay plan remain the same.

<b>Per-Prescription Copay Maximum</b>	<b>2007</b>	<b>Effective April1, 2008</b>
Copay on formulary drugs	20%	No change
Minimum copay, 1 month supply	\$7	No change
Minimum copay, 3 month supply	\$17.50	No change
Maximum copay, 1 month supply	\$32	\$34
Maximum copay, 3 month supply	\$80	\$85

### **Blue Preferred network updates**

Non-Medicare members will see the addition of physical therapists in the Blue preferred network beginning April 1, 2008. As always we encourage you to use network providers because you'll save on out of pocket costs. Members traveling or living outside the state of Michigan who choose to use non-network providers will pay the same additional copay as those living in Michigan.

### **Copay will apply to most medical services**

Your medical copay continues to be limited by an annual of total of \$500. Beginning April 1, 2008, the medical copay will include all services, regardless of setting, except Home Health Care, Hospice, and network laboratory and durable medical equipment providers. Once an individual's 10 percent copay totals \$500 in out-of-pocket costs, the 10 percent copay is satisfied for that individual for the remainder of the year.
